SUPERNOVAE 2005M AND 2005N

Two apparent supernovae have been reported from unfiltered CCD frames: 2005M by T. Puckett and D. George (cf. *IAUC* 8460; 0.60-m automated supernova patrol telescope), and 2005N by J. Graham and W. Li (cf. *IAUC* 8460; LOSS/KAIT).

SN	2005 UT	α_{2000}	δ_{2000}	Mag.	Offset
2005M	Jan. 19.37	9 ^h 37 ^m 32. ^s 36	+23°12'02." ⁷	18.8	6".6 W, 10".8 S
2005N	Jan. 19.58	14 04 02.61	-14 37 48.8	18.8	39" E, 48" S

Additional approximate CCD magnitudes by the respective discoverers: SN 2005M in NGC 2930, 2002 Apr. 4 UT, [20.0; 2005 Jan. 20.22, 18.2. SN 2005N in NGC 5420, 2004 July 9.21, [20.0; 2005 Jan. 20.55, 18.3.

SUPERNOVAE 2005J AND 2005K

M. Modjaz, R. Kirshner, and P. Challis, Harvard-Smithsonian Center for Astrophysics, report that a spectrum (range 350–740 nm) of SN 2005J (cf. *IAUC* 8467), obtained by M. Calkins on Jan. 19.40 UT with the F. L. Whipple Observatory 1.5-m telescope (+ FAST), shows it to be a type-II supernova, probably within a few weeks past explosion. The spectrum consists of a blue continuum and Balmer-line P-Cyg features. Adopting the NED recession velocity of 4182 km/s for the host galaxy, the expansion velocity derived from the minimum of the H β line is \sim 10000 km/s. A noisy spectrogram of SN 2005K (*IAUC* 8468) taken by Calkins on Jan. 19.42 reveals it to be a type-II supernova. The spectrum shows P-Cyg features of H α and H β , and the expansion velocity derived from the minimum of the H β line is \sim 5000 km/s (adopting the NED recession velocity of 8151 km/s for the host galaxy).

COMET C/2005 A1 (LINEAR)

Improved parabolic orbital elements from *MPEC* 2005-B03.

$$\begin{aligned} T &= 2005 \text{ Apr. } 10.2414 \text{ TT} & \omega &= 271.8882 \\ q &= 0.906662 \text{ AU} & \Omega &= 355.8552 \\ && i &= 74.8859 \end{aligned} \quad \left. \begin{aligned} & \omega = 271.8882 \\ & \Omega = 355.8552 \\ & i = 74.8859 \end{aligned} \right\} 2000.0$$

Total visual magnitude estimate by J. J. Gonzalez, Asturias, Spain (0.20-m reflector): Jan. 17.25 UT, 11.6 (coma diameter 2'.5).
